Rieskamp Washing Systems Announces New Neutral Cleaner Availability

New Product Comes from an Industry Leader

CINCINNATI, OH: --- Rieskamp Washing Systems, a division of Galaxy Associates Inc., designs, installs, and services automatic wash systems for trucks, buses, trash trucks, trains, and public works facility vehicles. Customers can now turn to a single source for the industry's **only effective neutral cleaning chemistry** as well as premier durable drive-through fleet wash equipment, and a national service network that provides regularly scheduled preventive maintenance service.

Galaxy Green Sheen 1850 is a neutral pH cleaner specifically developed for truck, trailer, transit, and train spray wash applications. The unique and complex blend of active ingredients in this product adjusts to the surface tension of each surface it contacts, allowing soils to be removed quickly. In addition, **Galaxy Green Sheen 1850** provides energy savings as it can be used in all wash bay applications without the need for heat. This unique technology meets and exceeds today's strict environmental standards. **Galaxy Green Sheen 1850** is recommended as a replacement for alkaline and acid cleaners and yields corresponding environmental and worker safety benefits. Surfaces including the wash bay will be cleaner and look brighter with reduced labor.

Benefits

- Eliminates two product applications with one product.
- Can be applied under low pressure and does not require hot water.
- Free Rinsing - leaves a clean, bright sheen appearance on all surfaces
- Degreases and resists soil re-deposition
- Is an excellent metal, fiberglass and glass cleaner and is multi-metal safe
- Does not attack concrete surfaces or metal– it protects your buildings and equipment
- Eliminates the storage of hazardous chemical on your site and consequent reporting

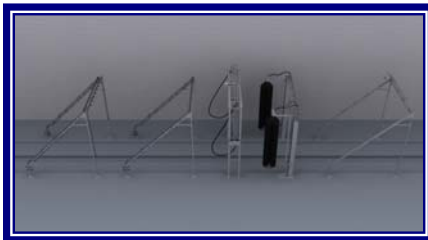

- On going savings will include:
 - Reduced water, chemical, and electric usage
 - Possible elimination of natural gas/LP usage
 - Reduced service calls on equipment and maintenance costs.
- Water sheets off quickly leaving glass streak free
- Cleans aluminum surfaces and wheel rims
- Has an easy titration procedure to control usage
- Improves worker safety and industrial hygiene
- Biodegradable – can go straight to the drain or
- Can be recycled

Rieskamp Washing Systems has developed a **Galaxy Green Sheen Single Application System**
